[BIO]

Darah is a hard techno DJ and producer from Brazil, based in Luxembourg. Her sets favour the hypnotic, high-pressure end of the spectrum — relentless low-end, long patient builds and a floor that never quite settles. She plays across the Grand Region and beyond, treating the booth as a place to hold tension rather than release it early.

[VALUES]

SUSTAINABILITY

A practice rooted in care, interdependence and a reduced ecological footprint. Hosts are asked to prioritise plant-based, local catering, reusable serveware over single-use plastic, and low-impact local transport.

DIVERSITY, EQUITY & INCLUSION

Non-negotiable: lineups that reflect a plurality of genders, races and backgrounds, safer and accessible conditions for all artists and crew, transparent and equitable fees, and zero tolerance for harassment or discrimination.
